

GLASS FABRIC ELECTRICAL ADHESIVE TAPE Type VETRODIF

Description and Application

Glass fabric and adhesive silicone

Glass fabric tapes for insulation and masking high temperature.

Outstanding performance adhesive, heat resistance, durability and adhesion on most surfaces.

Technical data

Support	Glass fabric + Thermosetting silicone
Color	White
Thermal class	Up to 180°C continuous service - Classe H
Totale thickness	0,18 mm
Adhesion - steels	3,5 N / cm
Tensile strength	220 N / cm
Elongation	6%
Breakdown voltage	2,5 Kv
Widths	10 mm à 100 mm
Packing	Rolls 50 m
