

POLYESTER AND NOMEX ELECTRICAL ADHESIVE TAPE Type ROLFASE F

**Description and Application**

Polyester and nomex aramid paper adhesive tape

Motors, transformers, windings and coils in general.

Technical data

Support	Polyester film + Nomex + Rubber based thermosetting adhesif
Color	Natural
Thermal class	Up to 155°C continuous service - Classe F
Totale thickness	0,13 mm (0,05 mm Nomex - 0,025 mm Polyester)
Adhesion - steels	4,5 N / cm
Tensil strenght	55 N / cm
Elongation	12%
Breakdown voltage	5,5 Kv
Widths	10 mm to 100 mm
Packing	Rolles 50 m
