

POLYESTER ELECTRICAL ADHESIVE TAPE Type ROLFASE B

Description and Application

Polyester adhesive tape

*Motors, transformers, windings and coils in general.
Excellent resistance to dielectric perforation, not subject
to corrosion.*

Technical data

Support	Polyester film + polyester fleece + Thermosetting rubber
Color	White
Thermal class	Up to 130° continuous service - Classe B
Totale thickness	0,13 mm
Adhesion - steels	4,2 N/cm
Tensil strenght	45 N/cm
Elongation	28%
Breakdown voltage	5 Kv
Widths	10 mm to 100 mm
Packing	Rolles 50 m
